Rev. Mr. Billings of North Texas us a pleasant call on yesterday. We hear the sermon of Rev. Mr. Harris last Sunday highly commended.

We learn there were 180 students in Coro-nal Institute before the advent of free school pupils. Our genial friend Mr. Everett, of the Ala-no Music House, San Antonio, made us a deasant call on yesterday.

We notice that Hooper, charged with mur-der, whose case was transferred from this to Travis county, has been acquitted.

Still there is no bridge over the Wood-Thomas ditch, and still it is badly needed. Whose business is it to place one there? We see in the Christian Preacher, of Dal las, a notice of the death of Mrs. Dora Leak, wife of Elder Leak, late of this place. She died at Melrose, Nacogdoches county, Sept.

Capt. Eve returned a few days since from a surveying tour of some three weeks on the Perdinales. He met up there a settler from the North Cape of Europa.

We wish Judge Wood could be persuaded add a third story to his new building now in progress on the square for an opera house and public hall. It is discreditable to a place of the size and pretensions of Sax Marcos not to have a good one.

The recommendation of the county convention on Saturday of Judge Fisher for representative to fill the place of McBride, was a very proper thing. He is well qualified, and will be found faithful to his trust under all circumstances. Mr. Donnell, of the Alex. Smith neigh-

borhood, has traded property with some one and moved to Wimberly. Mr. D. is a good man, but we hope we have lost nothing by Mr. Atwell, a merchant of Hutchins, Texas, visited our town last week. Mrs. A accompanied him and will remain for some time for the benefit of the climate. They are old friends of Miss Russell, and

lady is stopping with Mrs. Hook and Mrs. Belle Sumner, of the vicinity of Du Pre, was here last week in search of her Pre, was here last week in search of her missing boy, Morris, who she thought she had reason to believe might be somewhere in this vicinity, but she could hear nothing definite of him. Any one knowing anything of him would confer a great favor on his mother by leaving information at the Fraz Parss office.

Commissioner Burleson wanted to know this week why we lately promoted Esquire Wyatt to his official place. We don't know anything about it, but presume it was the result of a slip of the pen, or the too liberal use of titles so common in Texas. Mr. B. also brought a more serious charge against the Fraze Prass, of publishing his school community as "colored," whereas they have no colored scholars. As to this error, we unhesitatingly aver that its parentage lies between Judge Kone, who furnished the list, and the printer who set it up. Commissioner Burieson wanted to know

A gentleman who ought to be well posted on the subject, assures us we did injustice to the members of the late Methodist conference at this place in what we said last week in regard to their leaving the evidences of the use of tobacco by any of them in the church. We were otherwise informed, but church. We were otherwise informed, but are glad to be set right, as we would not do injustice to any one. Taking the statement of our last informant as being correct, we must regard it as a remarkable instance of "saving grace" on the part of those mem-bers of the conference who use the weed, over the great body of others who indulge

An eleven year old boy giving the name of Sam Davis, and who said he came from An eleven year old boy giving the name of Sam Davis, and who said he came from Galveston, has been about here for some time, earning a precarious livelihood carrying papers, blacking boots, &c. Mr. Smith the drayman, kindly invited him to get his meals at his house, and procured him a place to sleep in the depot. He proved himself worthy of this kindness, but was recently taken sick of typhoid fever. Mr. Smith and family did the best they could for the poor little waif, but having a large family, some of whom were in poor health, and a small house, the boy was not favorably situated for recovery. The facts coming to the knowledge of some kind-hearted persons, the boy was taken to another place and a good nurse hired to take care of him, for which purpose a subscription of over \$20 was made up. The child we learn now bids fair soon to recover. It gives us very great pleasure to recover. It gives us very great pleasure to record this truly Christian deed.

Tax average Texican is a tender tendril. Men were shivering on the corners yester. day, enveloped in ponderous overcosts. The thermometer dropped to within 150 of zero night before last at Des Moines. Iows, here it stood at 50 ° yesterday.

"Goop-pars for ducks," and duck hunters are out in force. The old sdage of "fisherman's luck" etc., is called to mind by their exploits; indeed they seem to experience more of this species of "luck" than the fisherman themselves.

press their willingness to sell portions of their lands in quantities to suit ourohas-ers. Such being the fact, the vicinity will of course soon be thickly settled, and thus hasten the growth of the town. Kyle is already the second town in importance in the county. The population is estimated we believe at 500, and

is steadily increasing. It is a very healthy place, and distinguished for the go ahead spirit of its people. It has re-cently received its greatest "boom" in securing the location of the High School of the San Marcos River Baptist Association. The buildings as they now stand are valued at \$5000. Contracts are now let for the building of a board. are now let for the building of a boarding house in connection with the school for the accommodation of scholars from abroad, and the entire buildings will be completed probably by Jan. 1, 1884, when the property will be well worth from \$12,000 to \$15,000. The school is now in progress, with about 170 pupils. It is in charge of Prof. W. M. Jordan and Mrs. W. A. DRIPPING SPRINGS Is situated on the Austin and Fredricksburgh road, in an attractive region It lies a little pearer Austin than San Marcos. As an illustration of its healthfulness, we will state that citizens of San Antonio have come to Dripping Springs to reside, on the express ground of its superior healthfulness to that famous health resort. In this respect it has unquestionably no superior in Texas. Second only to this its chief distinction is its flourishing academy. The spacious school building was erected in 1881 under the auspices of Prof. Jordan, now of Kyle, who did much by his energy and ability as a teacher in making it a success.

There are about 100 pupils, many of them attracted from abroad by the healthfulness and good morals of the town. No incorinting liquids are allowed to be sold there. The scenery is quite beautiful and romantic The following are some of the busi
